(b) Provision of allotments. Some interest has been expressed in allotment gardens. Clerk advised Cllrs that if written requests were received from 6 or more electors interested in cultivating a plot for domestic use the parish council was bound to consider the possibility of providing facilities. To be an agenda item for the March meeting to consider any formal written requests received in the meantime.

(c) Core Strategy. Cllrs commented how relevant the LDF response of 2008 still is. D/Cllr Saywell said that before any more development was allowed there should be a payback and improvements made to the infrastructure and it was important that Shebbear tells the planners what the current situation is, and what is needed. Clerk is asked to draw up a draft Core response and also enclose a copy of the Parish Plan which contains a lot of useful background material.

#### **16. District Councillors Report.**

D/Cllr Saywell said that there was little more that he could add to what he said earlier, that, although he is relatively young he could remember when Shebbear had more facilities than it does now. He does not believe that Shebbear will be swamped with houses, there has been too much development already and other communities have had no development thanks to the current policy. Maria Bailey has hinted that if there were many protests it was likely that all the houses would go into the market towns.
